

TESTIMONIALS

WHAT OUR PATIENTS HAVE TO SAY.

I'm proud that we have a clinic like this where I know I'll receive first-rate care that I can afford.

-Erika, 34, Mother of 4

They treat me with respect and give me the information I need. I never feel judged.

-Leah, 18, Student

It's always nice and clean. Wait times are reasonable. All types of people come here. Access is for everyone.

-Raymundo, 26, Professional

My Access is down the street. I get my annual physical, condoms, and birth control for a year. Everything I need in one place!

-Emily, 30, Professional

BENEFITS

THERE ARE PLENTY.

You want to be healthy. We want that, too.

Prevention first. We focus on finding problems as early as possible to help you stay healthy.

Education is also a priority. We'll treat you, and teach you how to stay healthy and how to use anything we provide to you.

Our comprehensive exams, assessments, and counseling will help you be informed about your overall health.

HOW IT WORKS

NO FINE PRINT.

Our funding programs that help us provide everyone with low cost care.

You will qualify for free premium care if you meet income and family guidelines.

- To apply for free care, please bring: proof of income, Texas driver's license or ID.
- Women U.S. Citizens should also bring proof of citizenship.

PAP TEST & HPV

PREVENT AND DETECT.

Having a regular Pap test could save your life.

- Regular Pap tests help women prevent 9 out of 10 cervical cancer cases.
- Pap tests are simple and painless.

A lot of people have HPV. You can find out from us if you're at risk of developing cervical cancer.

- HPV vaccinations can help you prevent cervical cancer and genital warts.

BIRTH CONTROL

YOU'VE GOT CHOICES.

We can provide a year or more of birth control at a time. All methods are available at every clinic.
